

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of \$0.10 per 8 1/2 " X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director
Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

Application # : FW-22009

Stream : O'brian Ditch

Applicant : Dura Development Corporation
Craig Linter
5740 Decatur Boulevard
Indianapolis, IN 46241-9561

Description : A trapezoidal shaped retention basin approximately 400' x 200' will be constructed on the north (right) overbank and immediately north of East 38th Street. A 2' high berm will be placed around the perimeter of the retention basin to increase storage. To provide drainage from the retention basin to the ditch, a 132' long, 12" diameter reinforced concrete pipe will be constructed. The pipe will be buried a minimum of 6" and terminate with a concrete end section on the north (right) stream bank that will conform to the bank slope. An energy dissipator will be constructed at the base of the concrete end section. Details of the project are contained in information and plans received at the Division of Water on August 6, 2002, November 4, 2002, November 6, 2002, November 8, 2002, and November 26, 2002.

Location : On the north bank of the ditch; approximately 2080' west of the intersection of East 38th Street and County Line Road
near Indianapolis, Lawrence Township, Marion County
SW $\frac{1}{4}$, SW $\frac{1}{4}$, SE $\frac{1}{4}$, Section 15, T 16N, R 5E, Cumberland Quadrangle
Quad Code: 3908578

30 Day Public Notice Report

Application # : FW-22118

Stream : Willow Creek

Applicant : Wolverine Pipeline Company
Josh Brieden
8105 Valleywood Lane
Portage, MI 49024-5265

Description : Approximately 300' of the creek's eroded streambank will be stabilized with bioengineered material to protect the bank from further erosion. The western retaining wall will be approximately 75' long and will be keyed into the streambed at its base and will conform to the existing bank at the project limits. It will have a maximum height of 6', a maximum streamward projection of 3' beyond the existing bank, and 3:1 sideslopes. The eastern wall will be 175' long and will be keyed into the streambed at its base and will conform to the existing bank at the project limits. It will have a maximum height of 10', a maximum streamward projection of 3' beyond the existing bank, and 3:1 sideslopes. Details of the project are contained in information and plans received at the Division of Water on October 24, 2002 and November 18, 2002.

Location : Along the left (south) bank; approximately 200' upstream of the US 20 stream crossing
near Portage, Portage Township, Porter County
NE¼, NW¼, NE¼, Section 10, T 36N, R 7W, Portage Quadrangle
Quad Code: 4108752
UTM Coordinates: Downstream 4604250 North, 482520 East

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

Application # : FW-22148

Stream : Buck Creek

Applicant : South Harrison Water Corporation
Bruce A Cunningham
PO Box 308
New Middletown, IN 47160-0308

Description : A 12" diameter ductile iron restraint joint pipe water main will be placed beneath the creek to fortify the existing water system. The line will be placed by the open trench construction method. It will have a minimum depth of 3' of cover beneath the streambed and banks. Details of the project are contained in information and plans received at the Division of Water on November 25, 2002.

Location : At the downstream (west) side of the Union Chapel Road stream crossing near Laconia, Boone Township, Harrison County
NE¼, SW¼, NE¼, Section 18, T 5S, R 4E, Laconia, IN-KY Quadrangle
Quad Code: 3808611
UTM Coordinates: Downstream 4214655 North, 577920 East

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

Application # : FW-22149

Stream : Simmons Creek

Applicant : Ernest Lewis
RR 1 Box 84
Shoals, IN 47581-9714

Description : Approximately 300' of the stream channel was realigned and straightened to prevent further erosion of the north bank. The new channel is approximately 300' long. It is 8' deep, with an 8' bottom width. Details of the project are contained in information and plans received at the Division of Water on November 27, 2002.

Location : Beginning at the upstream side (east) of the County Highway 37 crossing over the stream and continuing upstream for approximately 300'
DOWNSTREAM: near Shoals, Lost River Township, Martin County
NW¼, NE¼, NW¼, Section 12, T 3N, R 3W, Shoals Quadrangle

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

Application # : FW-22152

Stream : Bee Camp Creek

Applicant : Board of Hamilton County Commissioners
Jim Neal
1700 S. 10th Street
Noblesville, IN 46060

Description : The proposed project includes the reconstruction of 1.82 miles of Olio Road, beginning approximately 310' north of 96th Street and extending north to approximately 500' south of Geist Reservoir. Olio Road consists of a two lane section from 96th Street to approximately 395' south of 113th Street. The existing pavement is 22' wide and consists of an asphalt roadway with no shoulders. The existing pavement along the corridor has deteriorated due to large traffic volumes and water infiltration. Storm water runoff is drained by ditches adjacent to the roadway that flow into Bee Camp Creek and Geist Reservoir. Bee Camp Creek currently flows under Olio Road via a large corrugated multi plate metal pipe arch that is approximately 98.4' long. The proposed roadway will consist of two 12' travel lanes in each direction separated by a 14' raised grass median. Additionally, a 10' multi-use lane will be placed behind a 4' grass buffer strip adjacent to the curb in each direction. The corrugated multi plate metal pipe arch that carries Olio Road over Bee Camp Creek will be extended. The downstream side will be extended 44'. Headwalls and wingwalls will be constructed at both ends of the culvert. In-channel work for this project will be limited to that which is necessary for the placement of culvert extension, headwalls, wingwalls, rip rap and geotextiles. It is anticipated that the channel work will extend 50' upstream and 60' downstream of this structure. The clearing of trees and brush from the banks of the stream will be the minimum necessary to replace the existing structure. Low water work will be limited to the placement of the structure and placement of rip rap. A limited amount of fill material will be necessary when extending the culvert that carries Olio Road over Bee Camp Creek. The following fill quantities represent the amount of fill material to be placed in the channel below the ordinary high water mark (OHWM). The fill material placed below the OHWM at the Bee Camp Creek will be limited to 100 cubic yards of revetment riprap. Details of the project are contained in information received electronically at the Division of Water on December 4, 2002.

Location : This project is located in Sections 1 and 12 of Township 17 North, Range 5 East, Fall Creek Township, in southeast Hamilton County.
near Fishers, Fall Creek Township, Hamilton County
Section 1, T 17N, R 5E

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

Application # : FW-22154

Stream : Fall Creek

Applicant : Indianapolis Department of Public Works
Long Nguyen
604 North Sherman Drive
Indianapolis, IN 46201

Description : The project involves rehabilitation of the existing concrete arch bridge carrying West 16th Street over Fall Creek. The rehabilitation will include removal and replacement of the existing railings, sidewalks and deck. Also, removal and replacement of portions of the spandrel walls and arch rings are anticipated. The deck profile will have a minimal raise. The new superstructure will be widened approximately 1 foot at each coping. New standard texas rail will be installed on the bridge. New reinforced concrete bridge approach slabs will be constructed. The approach pavement on the east and west side of the bridge will remain the same width and be resurfaced. Details of the project are contained in information received electronically at the Division of Water on December 6, 2002.

Location : At the West 16th Street crossing of Fall Creek
at Indianapolis, Center Township, Marion County

Application # : PL-19335

Lake : Lake James

Applicant : Marcia R Conley
Jeffrey G Raff, Attorney
201 East Washington Center Road
Fort Wayne, IN 46825-4404

Description : An concrete seawall will be constructed across approxiamely 30' lakeward of the shoreline and will be 80' long. An addition 10' of seawall will be constructed along the eastern side of the wall to tie into an existing seawall. The area landward will be filled. Also, a 150 concrete seawall will be constructed along the eastern side of an existing channel. The seawall will begin approximately 27' from the western border of the channel, the seawall will run parrell, an 975 square feet of lake will be filled to accomidate the new seawall and a 20' x 25' boatwell will also be filled. Details of the project are contained in information and plans received at the Division of Water on September 26. 2002.

Lake : Lake Wawasee

Applicant : Charlie Helmen
11523 North Crowdale Drive
Syracuse, IN 46567-8698

Description : An existing piling seawall will be refaced across a the 50' rear of the applicant on the channel off Lake Wawasee to prevent deterioration. The refacing will consist of Northstar vinyl sheets which will be installed in front of existing wall. The refacing will have a maximum thickness of 6". A 12" wide 21poly viny coated walkway will be constructed on top and landward of the lakeward face of the refaced wall. In the front of the property an existing concrete seawall will be refaced acrossed the 53' frontage of the appicant on Lake Wawasee to prevent deterioration. The refacing will begin at the southern property line and will extend north for 53". It will consist of reinforced, poured inplace concrete which will be tied to the existing will. The refacing will have a thickness of 6" and will be sloped on the lakeward side. A 36" wide concrete walkway will be constructed on top and landward of the lakeward face of the refaced wall. Details of the project are contained in information received electronically at the Division of Water on December 4, 2002.

Location : The property is located on the east shore of Lake Wawasee, on Crowdale Dr. 11523, and on the channel behind this property near Syracuse, Turkey Creek Township, Kosciusko County

Statute/Rule : Lakes Preservation Act, IC 14-26-2, with the associated Public Freshwater Lake Rule, 312 IAC 11
